Nonsense Word Use

40L volunteers have found nonsense words very helpful for their remedial students. They help the brain retrain the guessing habits acquired from sight word teaching.¹ Nonsense words are also useful for beginning readers to check to see if they are truly understanding the phonics they are being taught. They are also an efficient way to work on specific types of nonsense words.

Students who improved their reading speed and accuracy of nonsense words improved their reading grade level and oral reading speed. Read a group of 25 words (5 rows) and track accuracy and Words Per Minute (WPM) read, using 40L's nonsense word tracking sheet² to calculate and record WPM rates.

If you would like to work on fluency with other word lists, you can use Don Potter's fluency drills, he has fluency drill's based on 40L's online phonics lessons.³ He also has fluency drills for Blend Phonics.⁴

40L volunteers hope that these nonsense words help you become a better reader as you retrain your brain with phonics.
