Webster's 1908 Speller Schedule
(Draft)

This schedule is designed to help see a notional schedule for Webster's Speller. You should move at the student's pace. A young student may require more than 2 years to finish. An older student using Webster's Speller for remediation and/or review should be able to finish in a year, you can do a lesson or two a day for an older student.

For a younger student, it may also be helpful to alternate Webster's Speller with a good basic phonics program such as Blend Phonics, Word Mastery, or Phonics Pathways.

The Table heading shows the table number from Don Potter's 1908 Webster Speller. The line heading shows how many lines of that table you should do that day. The "sent" heading is short for sentence, and shows the number of sentence to read for that day. The "grade level" heading is only available for word lists with an associated reading passage. It shows the Fry reading grade level for the passage. "Rev." is short for review, some days are allocated for review. To find spelling rules you can apply to the words, see link #7 of the student folder of the Syllables Spell Success page.

A video series showing how to integrate Blend Phonics and Webster's Speller is now available at 40L's YouTube page, and there is a transcript of the program and all the files needed to use it at 40L's Syllables Spell Success page:

<http://www.thephonicspage.org/On%20Reading/syllablesspellsu.html>

40L's volunteers wish you the best of luck on your reading journey.
